Natal Chart Report

BIRTH CHART

This birth chart report shows the positions of the planets for Glenn.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Sagittarius

Restless, cheerful, and friendly, Sun in Sagittarius people are generally on the go. They have a love of freedom, and a disdain for routine. Generally quite easygoing, Sagittarians make friends with people from all walks of life. They love to laugh and tease, and get along well with both sexes. Sagittarians have an often blind faith in people, and in the world. Their optimism is infectious, although it can get them into trouble from time to time. These are curious people who love to learn. Their idealistic nature is hard to miss.

Although generally easygoing, Sagittarius is a fire sign. This gives natives a generally quick temper. Fortunately, they're usually as quick to forget what got them angry in the first place. The need for escape is generally strong, and some Solar Sagittarians come across as a little irresponsible. They're generally easy to forgive, however. After all, their direct, honest approach in life is admirable.

Short description:

He is good, idealistic, enthusiastic, and warm-hearted. He is independent, having a taste for travel and freedom. He is curious and fair-minded.

Possible issues: He is too adventurous and may leave things to chance; may take risks which cause problems; he is rebellious and sometimes tactless when offering opinions.

Sagittarius with ascendant Capricorn

Sun in XII: The Sun is in the twelfth house

You have a tendency to be introspective and need some space and seclusion in order to pull up your strength. You may avoid the spotlight, and if you do find yourself in a public role, you tend to hide your true self behind that role! Because your will is directed inwards, you need to find a path for yourself that allows you to "get away from it all" at least some of the time. Honor your need to be alone with yourself, but avoid over-identifying with your inner world to the point that you truly feel alone in a crowd. You shine when you serve others in some way. Your compassion sets you apart from others,

but try to work with it rather than let your compassion work against you by reinforcing your own sense of loneliness.

167 Trine between the Sun and Moon

Your emotions and your will are at peace with one another, suggesting a rather balanced personality. The "messages" you received in childhood were not contradictory overall, and you have a stronger sense of purpose and appreciation of harmony than most people. You are likely personally popular, mainly because you expect harmony in your relationships. You are attractive to most people, and your self-confidence and security make you easy to deal with on many levels. Your relaxed, easygoing disposition puts others at ease. You may not be prepared for conflict and you often avoid "rocking the boat". You may acquiesce to others a little too often, if only to maintain a feeling of balance and harmony, as conflict is something you not only dislike, you might fear it. The tendency towards too much acceptance--of the self and of others--is usually present. You must be encouraged to question life, or you run the risk of taking things for granted.

Vitality is usually good and quite constant. You are not necessarily hard-driving, unless other indications in the chart point to it, but your constitution is generally strong. At any rate, you are not as prone to the kinds of ups and downs that plague those with challenging aspects between the Sun and Moon. This is because even though your life goals and your emotional needs are different, they are in harmony.

Short description: He has lots of vitality. He likes public life, he is popular and his company is appreciated. He is balanced, at ease with himself and usually gets on very well with his parents or guardians.

128 Conjunction between the Sun and Mars

You are enterprising and have powerful stores of energy that you can draw upon when needed. You respond to problems or challenges with a spirited and enthusiastic confidence that is admirable. You are naturally competitive, and this trait is generally well-received by others simply because it is unforced, unaffected, and sincere. You truly believe in fair play, and you seem to be in love with life. When you are expressing competitiveness and courage, it's easy for others to smile and accept these traits as positive ones rather than being rubbed the wrong way. You have good physical vitality. Although competitive, you are not naturally combative. You may enjoy sports or games that are competitive, but not violent. Breaking the rules of a competitive game is particularly upsetting to you. You are more able than most to control your desires, aggressions, and instincts. You know how to be fair, and you expect others to be fair. As such, sneaky behaviors, uncontrolled impulses, violence, and rage are offensive to you.

36 Conjunction between the Sun and Neptune

There is an unmistakably dreamy, inspired, and sensitive side to you. A marked appreciation for music and the arts is present. The connection of Neptune with the Sun,

which represents the ego and the will, certainly softens some of the hard edges that might be found elsewhere in the chart, adding a sensitive and spiritual dimension to your personality. You are naturally compassionate. It is so completely natural for you to accept that there is more to the world than what is before your eyes, that you tend to presume everyone must be spiritually-inclined. Of course, you come to realize that this is not the case at some early point in your life. Your attraction to spirituality and metaphysical subjects is usually marked. These aspects favor writers, artists, and musicians. You are sensitive to those who are suffering, although you are not usually taken advantage of. You are humanitarian and may have a special connection with animals. If other aspects and positions in the chart support it, you are not one to dominate others or assert yourself to the point of brashness. You have a fertile imagination, are full of inspiration, and very emotional - all qualities that you may use on the professional level.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Leo

Depending on other positions in the chart, Moon in Leo people are not necessarily outgoing. When they feel comfortable, they do like being the center of attention. That is, they like being in the "spotlight" in the comfort of their own homes and with family and friends. They enjoy entertaining others, and often take on the role of comic. Lunar Leos often feel a need to organize, and even control, their families and friends. They have an inner mission to set things right, and generally like to oversee the goings-on in their little circle.

This is a rather creative position of the Moon. At the very least, Moon in Leo people want to create and entertain. They can be rather lazy at times, and a little bossy too. Generally, though, they have a deep need to treat others fairly and justly. Lunar Leos require lots and lots of love and care in order to function well in the world. When they feel slighted, these people can be dramatic in their emotional displays. When their pride has been hurt, they are given to big scenes and sulking. This rarely happens in public, however. Lunar Leos are far too concerned about their image to make splashy scenes outside the comfort of their own homes. In public, they prefer to take things in dignified ways. At home, however, they're given to big displays of emotional drama. These scenes generally don't last too long, however. Lunar Leos are often personally popular folk who are valued for their integrity and strong sense of justice. Generally, it is easy to reason with a Lunar Lion. Appealing to their well-developed sense of fairness usually works well.

Short description:

He is brave, knowing how to take risks and possessing the courage of his convictions, honest, imposing, and sharp. He has a great sense of, and respect for, justice.

Organizational sense. Selectivity with friends but is not overly influenced by them. Taste for splendor.

Potential issues: changing and numerous affections. Emotionally demanding and proud. Brooding when attention is not forthcoming.

Moon in VIII: The Moon is in the eighth house

He has a predilection for deep and profound dreams. Romantic fantasies figure strongly. Possibly quite interested in the occult.

While you have a strong need for emotional security, you are also a person who is drawn to pushing your own limits, and many lifestyle changes can be the result of this need to challenge, or reinvent, yourself emotionally. You are always fascinated with how people work, taboos, secrets, and all that is forbidden or hidden. Sexual unrest, or an apparent need to constantly change sexual partners or to challenge yourself sexually, may be a symptom of emotional insecurity. Connecting with another person intimately is an emotional need, but your changeable emotions might often get in the way of your goal. Jealousy and possessiveness might also be qualities you struggle with. At your best, however, you are a person who is intimate, deep, and intensely loyal to a partner.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Sagittarius

Enthusiastic, humorous, and sometimes moralistic. He has strong opinions, and will often be eager to share them! Democrat, philosopher, tolerant, respectful of laws. Interested in foreign places and learning more languages. Believes that everything teaches you something.

Mercury in XI: Mercury is in the eleventh house

He has lots of friends. He likes intelligent, cultivated people around him with whom he can enjoy verbal sparring. He likes debates, interminable discussions. Often has friends who are younger, or friends come and go.

You are endlessly curious about people, group interactions, community affairs, trends, and teams. You are attracted to people who bring new ideas into your experience, and

who have something novel to contribute on an intellectual level. You are very forward-looking and fair-minded. Fair play, impartiality, and unselfishness are important ideals for you. There can be many changes or fluctuations in your personal wishes, dreams, plans, and ideals. You might attract friends who come and go, or who are dishonest or duplicitous.

75 Trine between Mercury - Jupiter

He is intelligent with big ideas: He is tolerant and has a strong sense of justice. He has good judgement, good sense and has his feet on the ground. He has the "gift of gab," fully enjoys literature and learning. He is erudite and will usually be successful socially.

50 Trine between Mercury - Lilith

Can be provocative in speech or communications, persuasive, interesting conversationalist, quick to see the flaws of a situation.

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Scorpio

Venus in Scorpio people attract others with their intensity and willingness to commit. They have a strong and concentrated manner which suggests their feelings run deep. Their actions in love tend to promise deep commitment and sexual pleasure, even if they are not telling you this directly. Their appeal lies in their focus on you, and their dedication. Venus in Scorpio seems fearless when it comes to intimacy. Potential lovers get the feeling that Venus in Scorpio will never stray, that they are intensely loyal to the one they love. They possess you, and somehow make it seem attractive to be possessed.

Venus in Scorpio natives give you their complete attention. These people are very focused on their partners. Depending on your personality, you may find this unnerving or entirely flattering. They have a strong need to control their partner, although this won't be immediately apparent, and they may not ever admit to this. Their body-and-soul love and commitment can be so intense that it eclipses fun and makes loving them a very heavy experience. Their emotion and intensity may seem overdone to those looking for a more lighthearted relationship. These people take things to extremes, and can be very provocative. Although they want to explore all of your nooks and crannies, they won't always be forthcoming with their own. When you've upset these lovers, you'll know it. Depending on the moment, Venus in Scorpio will shoot you one of the most piercing glares around, or totally blow up. Whichever style they choose, a slighted Scorpio lover is not a pretty sight. These people can be jealous of all of your attachments, but few will

admit it. They're not afraid of being underhanded in matters of the heart, and they are experts at cutting through all the fluff and seeing you for what you are. Still, you may find their conclusions about you seem skewed and mistrustful.

Pleasing Venus in Scorpio involves demonstrating your complete commitment and loyalty to them. Appreciate their guts when it comes to love and intimacy -- they're proud of their courage in these matters. If you can, and they're deserving, relinquish some of the control in the relationship. Let them feel they own you, without taking it to extremes. Remember, though, that some Venus in Scorpio lovers can and will take advantage of you on a subtle level, if only to keep you all to themselves. Let them have their secrets and their silences.

Short description: Sensual and passionate. Passions run hot and cold. Full of ardor and desire where the partner needs to be able to match his level. Can be jealous and possessive. If disappointed or deceived in love, he can become bitter. Usually very loyal.

Venus in X: Venus is in the tenth house

His best years may be in the parental home and also the last years of life. That said, the rest are not unhappy, but contain certain hurdles. Love can help in the professional life; he has a gift for seduction. He likes to entertain; he likes the comfort and attractions of home life.

Others tend to respect you for your charming manner, and you have many admirers, although some of these are admirers from afar, as there is an aura about you that is charming yet strangely (and intriguingly) distant. You have a great need to be recognized or admired for your charm, beauty, or loving manner, but should be careful not to become too wrapped up in what others think of you, as you might come across as phony or superficial. Some people with this position are "married" to their work or to their image. You are good at making contacts and organizing social events.

116 Sextile between Venus - Saturn

He has a good grasp of reality and of duty. He is thrifty, reserved and usually not given to showing off. He likes truth and justice. In love, his sentiments are sincere and deep, he never plays false. He is, of course, faithful in love and friendship. He might love a much older person, appreciating that person's intelligence and good sense.

169 Conjunction between Venus - Uranus

Independent in love. His love life is rich, but possibly with passing love affairs. He can tire quickly and can be scared of losing his liberty. Traditional marriage may not be for him. He has that little something that attracts others. He likes amorous adventures or unusual pastimes, he is romantic, although a little detached or unpredictable. He is the eternal lover and is more likely to break something off than live untruly. He likes art, anything

new.

The ability to get along with--and accept--people from all walks of life as friends is strong with this position. He can readily see through insincerity in others. In relationships, tolerance is the most important "ingredient" to him. His sexual preferences can be somewhat unconventional, and he may not be happy with a partner who tries to limit his sexual expression. He is usually quite capable of maintaining relationships that require a great deal of freedom and tolerance, such as long-distance romances or set-ups in which partners are unable to see each other consistently. His style in love can be somewhat free and breezy, and possibly noncommittal. He quite naturally accepts the idea that his partner might need some personal space and freedom.

Mars

Mars represents the desire for action and physical energy.

Mars is in Capricorn

With fiery Mars in the more orderly sign of Capricorn, natives with this position have a subdued and controlled style of approaching life. Most don't come across as particularly enthusiastic; rather, theirs is a low-key but determined energy. Mars in Capricorn natives like to be on top of things. They are generally goal-oriented and focused people who are not afraid of hard work. Most are achievers by nature, and many possess well-defined ambitions--well-defined to themselves more than anything. They're not particularly flashy people, but their drive to succeed and to make their lives secure is strong, even if it's not right out there for the world to see. Anger is expressed in a rather cool, level-headed way with this position of Mars. Self-control is strong when it comes to expressing anger, drive, energy, and sexuality. Capricorn is a sign that detests waste of any kind. It also fears disorderliness and "letting go". With Mars in Capricorn, there is generally a powerful need to stay in control.

This is not to say that natives of this position are cold in any sense of the word. Their desires are strong, but they are often centered around the physical and material world--all that can be seen and held. With Mars in an Earth sign, sensuality is expressed in an earthy way. However, unlike Mars in Taurus, for example, (another earth sign), Mars in Capricorn is not self-indulgent by nature. These people are usually quite disciplined. Capricorn possesses the ability to plan for the future--something that many other signs have difficulty doing. Mars in Capricorn natives are working toward realistic and attainable goals. They are productive people who get off when they see tangible results from their efforts. Many natives with this position are a little hard on themselves, and sometimes others. They usually can be relied upon because they have an innate sense of responsibility to both themselves and to those they care about. Most of them are very hard-working, and one of their strategies for anger management is to throw themselves even more energetically into their work!

Mars in XII: Mars is in the twelfth house

So much of his energy goes into working life. He loves research. He could be a lab worker, doctor, police officer, teacher specializing in hospital, prison or hospice work. He can be indirect and very private. Rich dreams and fantasies.

With Mars in the twelfth house of the natal chart, you can struggle with asserting yourself in direct, natural ways in your youth, but with time and experience (and perhaps some hard work), you're likely to learn to work with this energy rather than allow it to work against you. Watch for a tendency to feel defeated before you've given something a real shot. You are extraordinarily resourceful, and you can handle many things on your own or in uniquely creative ways.

Though you may have a great deal of energy and drive, you lack confidence or the desire to put yourself and your interests first. Positively you can be very unselfish, working more on behalf of others than for yourself. You deny your own desires and needs too much, however, and you are likely to secretly become very angry, which can sabotage your finest efforts. There is a touch of the incurable romantic in your nature. Your daydreaming and fantasizing world is rich and precious to you. You also bring imagination into your sexual relationships, although you can take a bit of time to feel comfortable and to warm up to a new person in your life. Overcoming a vague and persistent feeling of guilt or doom can go a long way towards a healthier, happier approach to the pursuit of your desires.

Jupiter Jupiter represents expansion and grace.

Jupiter is in Leo

He attracts the most good fortune when he expresses magnanimity, is generous with others, inspires confidence in those around him, conducts himself with dignity and sincerity, while also avoiding the pitfall of excessive egotism. Prosperous areas are creative ones, entertainment, children, and recreation. Takes pride in everything he does. Generosity brings success.

Jupiter in VII: Jupiter is in the seventh house

He has a good marriage or partnership, with a useful partner who helps to bring success if only by their advice. Good legal outcomes. Traditionally, this placement has been

associated with benefits through marriage or partnership.

187 Conjunction between Jupiter - Lilith

He could meet a partner much wealthier than himself. Good sexual understanding.

Saturn

Saturn represents contraction and effort.

Saturn is in Virgo

He likes order, harmony, method, and balance. He can undertake long-term medical or scientific studies.

Weaknesses: Can be intransigent, stubborn. Misuse of medicines, or asking for too much medicine.

Saturn in IX: Saturn is in the ninth house

He is studious, patient, rigorous, austere. He likes reflection, meditation. He carries out all the plans he makes. He can be a stay-at-home.

-15 Square between Saturn - Neptune

Living conditions can be difficult, or he struggles with expectations and can feel the need to very often draw clear boundaries between reality and dreams.

Uranus

Uranus represents individual liberty, egoistic liberty.

Uranus in Scorpio

Intelligent and subtle. Usually he adores research, inquiry, investigation. Very sensual. May want to explore new ways to connect with others.

Uranus in X: Uranus is in the tenth house

He must have an independent career with little in the way of dull routines, and that satisfies his need to move around, travel and that must in particular have an element of excitement, uncertainty, creativity, or risk attached. He can be eccentric.

Neptune

Neptune represents transcendental liberty, non-egoistic liberty.

Neptune is in Sagittarius

May especially enjoy long voyages, things foreign, being close to water. Altruistic, broad spiritual vision, humane, spiritual.

Neptune in XI: Neptune is in the eleventh house

Friendships are unselfish, and he very much wants to belong to a group of like-minded people or to connect with a higher purpose.

54 Sextile between Neptune - Pluto

He is perceptive and able to see layers to a situation. He is naturally drawn to learning what makes himself and others tick.

8 Sextile between Neptune - Midheaven

His plans can sometimes lack realism and are therefore often unattainable. However, creative fields can be enormously successful. Can maintain a mysterious but magical reputation.

Pluto

Pluto represents transformations, mutations, and elimination.

Pluto is in Libra

May look for new ways to relate to others.

22 Conjunction between Pluto - Midheaven

He can pour much of his energy into succeeding professionally. He is an authority figure and a great organizer. Strong sense of authority.

Lilith

Black Moon Lilith represents our darker, deeper natures that may be repressed or buried.

Lilith in Leo

He may have felt wrong for calling special attention to himself, for seeking the spotlight, or for seeking to be better than others in competitions. He may feel uncomfortable with people expressing these Leonine traits. He needs to find ways to accept the very natural and human need for applause. This can help put an end to extreme behaviors in these areas wherein there is a period of remorse after he seeks attention and perhaps goes to an extreme.

North Node-South Node

The South Node represents our overdeveloped character traits. We are talented here but if we overdo this area of life or hold onto these traits to feel secure, we may stagnate. The North Node points to the qualities that we need to work on and develop to achieve inner balance and fulfillment.

True North Node in Virgo

His challenge is to live a more orderly, proactive, and practical life. Developing and following healthy and practical routines and schedules can be a challenge but highly rewarding. Procrastination leaves him more vulnerable to vague worries and guilt. Qualities to develop: Organization, promptness, attention to detail.

North Node in IX: North Node in the Ninth House

He is learning to put faith in something bigger than himself. He is brilliant at seeing the details and facts, but can be too focused on them to his detriment. As he embraces more life experience, adventure, and faith in life, his luck and opportunities will increase many times over. Qualities to develop: adventurousness, faith, enthusiasm.

The Houses

House I is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Sagittarius with ascendant Capricorn

Ascendant is Capricorn

There's a seriousness to Capricorn rising people that is unmistakable. Even when they're joking around, it's of the deadpan variety. In fact, plenty of very humorous people have Capricorn Ascendants. It's all in the timing...and the fact that they don't giggle before the joke is over. Capricorn Ascendant people project competence. They simply ooze it. They're generally very image-conscious people--the clothes they wear and their manner are a big deal to them. They want to appear successful, and they generally succeed! Often the Ascendant persona is the one that was forced upon us by family conditioning. For example, parents may label their Libra Ascendant child the "nice" one; their Aries Ascendant child the "independent" one; and their Pisces Ascendant child is generally the space cadet of the family. We adopt these roles as familiar ones, and often carry them with us as our defense mechanisms, in some way or another, for the rest of our lives. In the case of Capricorn Ascendants, these were the children who were considered the responsible ones. Sometimes, it was they themselves who looked around them and felt the need to be the structured, dependable, and responsible members of the family. So, often, Capricorn rising people adopted a strong sense of tradition, family, and responsibility at a very young age.

Capricorn rising people are generally big on family, and forever worry about security--for themselves and their dependents. They come across to others as hard-working, competent, and dependable people. What others may not see under that cool, even suave, exterior, is an inner struggle: they often ask themselves, "Am I doing enough?", "Do I deserve all of this?", "How can I make things better?" They worry a lot about the future. If success seemed to have come easy to these folks, it hasn't. They just made it look that way with a patient, hard-working, driven personality. Some Capricorn rising people practice some form of self-denial. They know how to do away with the frivolous. Still, they'll spend money on the clothes they really want (the ones with the right labels, that is), and other status symbols. Although they're rarely showy, their quiet air of success is often a result of conscious effort. More often than not, Capricorn rising individuals are success stories. Their childhoods may have been difficult, but they slowly but surely turn their lives around. Saturn rules this Ascendant, and this generally means a kind of backwards way of living--as children, they are serious and bear a lot of responsibility; and as they grow up, they age beautifully, learning how to loosen up.
